EDUCATION

- University of Connecticut: B.S. in Statistical Data Science, Minor in Economics, GPA: 3.7, Expected May 2027
- Sitting for Securities Industry Essentials Exam – August 2026
- Relevant Coursework: Econometrics, International Finance, Financial Modeling, Mathematical Statistics, Time Series Analysis, Optimization, Probability

CERTIFICATIONS

- Bloomberg Market Concepts (BMC), Bloomberg Finance Fundamentals, Bloomberg Spreadsheet Analysis – Bloomberg, June 2026
- Business and Financial Modeling Specialization – The Wharton School, University of Pennsylvania, July 2026
- Google Data Analytics Professional Certificate – Google, July 2026

RELEVANT EXPERIENCE

Financial Services Intern - Apella Wealth

West Hartford, CT January 2026 - May 2026

- Supported advisors on portfolio reviews, financial modeling, and client meeting preparation, compiling market and client data into clear takeaways.
- Researched equities, ETFs, and mutual funds and assisted with asset-allocation and rebalancing analysis supporting client recommendations.

Research & Data Analyst - SNE Industrial Assessment Center

Storrs, CT August 2025 - Present

- Diagnose inefficiencies across large-scale industrial systems, identifying cost-saving opportunities and performance trends that inform client recommendations.
- Build financial models in Python and Excel quantifying ROI, payback periods, and risk exposure, translating technical analysis into business cases for capital investment decisions.
- Deliver executive-ready reports distilling complex, multi-variable data into actionable recommendations for facility stakeholders.

Incoming Sports Statistics Intern - UConn Baseball

Storrs, CT August 2026

- Build statistical models in Python and R analyzing game and practice data to support player development and inform coaching staff decisions.

Data Analytics Intern - SPIROL International Corporation

Killingly, CT December 2025 - January 2026

- Cleaned and transformed business data in Python and queried relational tables in SQL, merging separate databases into one master database to improve reporting accuracy.

PROJECTS

Husky Blue Diagnostics LBO Model - Hillside Private Capital

- Built a five-year LBO on a \$98MM enterprise value (8.5x entry multiple derived from a four-company TIC comparables set), financed with \$57.6MM of unitranche debt at 5.0x leverage and \$55MM of sponsor equity.
- Stress-tested Upside, Management, and Downside cases: 17.3% IRR / 2.2x MOIC on zero multiple expansion, driven by EBITDA growth and a full cash sweep compressing leverage 5.0x to 2.0x.
- Recommended equity over debt: the unitranche earns a fixed 8.1% IRR in every scenario with coverage never below 2.7x, so the lender's protection is already priced and buys no incremental safety.

NBA Win Percentage Prediction Model in R

- Built a multiple linear regression model predicting team win percentage from box-score statistics and share of salary cap used, achieving a 95.5% adjusted R^2 with 91.9% predicted R^2 (PRESS) validation.
- Found salary cap share statistically insignificant ($p = 0.384$) once performance variables were controlled for, indicating spend converts to wins only through on-court production, not payroll size.

SARIMAX Forecasting Model for Industrial Electricity Demand

- Developed a SARIMAX time-series model in Python forecasting monthly industrial electricity consumption, incorporating exogenous variables to isolate demand drivers and cost-saving opportunities.

LEADERSHIP

President - Alpha Delta Phi Fraternity

University of Connecticut May 2025 – Present

- Oversee operations, recruitment, budgeting, risk management, and long-term strategic planning for an organization of 100+ members, coordinating a six-person executive board; previously Recruitment Chair.

SKILLS & AFFILIATIONS

- Financial Modeling, LBO Modeling, Comparable Company Analysis, Portfolio Analysis, Statistical Analysis, Python (Pandas, NumPy, Statsmodels), R, SQL, Excel, LaTeX, Bloomberg Terminal (BQL)
- UConn Finance Society • Analytics & Information Management Society • UConn Club Baseball (Former Assistant Coach)
